** The prices listed in this publication are effective from September 27th, 2025, and will expire on October 27th, 2025. These are the retail prices for the Hillsborough Collection range of products. Customers looking for bulk purchasing, trade, contractor, or merchant pricing should contact our office for further information.*

Terms and Conditions

Pietre Naturali Ltd T/A Irish Stone, The Hillsborough Collection

General Conditions

The products you are purchasing are 100% natural stone, meaning no two pieces will be exactly the same. Each piece and pallet of stone will have slight variations in shading, grain, and features. Some pieces may include small veins, fissures, or blooms, which are entirely natural. We recommend viewing the typical product in our show garden to ensure you are comfortable with purchasing a 100% natural product. Products shown in the show garden, brochure, or on our website may not be identical to what you will receive, as they may be sourced from different areas of the quarry or strata.

Before installation, we advise selecting pieces from each crate and mixing them together to reduce noticeable colour variations. It is also recommended to wet or clean the stone before laying it, as this will highlight any unacceptable colour variations or significant blemishes.

All our 100% natural stone products meet the relevant sections of BS 7533 and BS EN 1341, including dimensional tolerances, which are less strict than those for manufactured products. Please note, 100% natural stone should not be confused with manmade products like concrete or porcelain, which are expected to have perfect patterns, colours, and dimensions.

If you have any concerns or require further information regarding the natural variations in the products, please contact us before proceeding with the order. It is the client's responsibility to ensure satisfaction with the stone upon delivery and before installation, as Irish Stone cannot offer replacements once the stone has been laid.

RETURNS AND REFUNDS:

Unused products in 'new' condition may be returned within 30 days of purchase and will be refunded via a credit note for the full purchase price or with a cash payment, minus a fixed 15% handling charge (minimum £50). No handling charge will apply if a credit note is issued. If the products are over 30 days old or are not in 'new' condition, any refund will be at our discretion, and the refund value will also be discretionary. Refunds beyond 30 days will only be processed as credit notes. Returned products will not be accepted after 45 days.

Please contact us by phone or Whatsapp on: +44(0)2892 689 587
